Map [2016011](#)

Approximately 90% of the terrain is covered with forest - mostly pine forest with good runnability. However, there are also parts with young vegetation and forest with bad visibility.

Terrain is variable: areas with interesting relief vary with flat areas with many small or big marshes and swamps. Swamps have mostly good runnability. Max height difference is up to 33 meters. Good network of paths and roads.

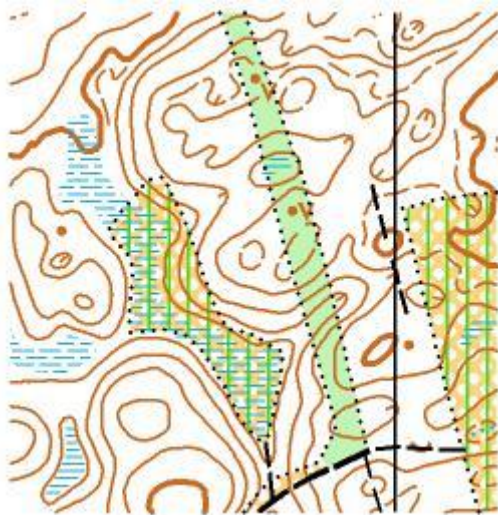

Map scale: 1:10 000 or 1:15 000.

Contour interval 2,5 m, map size A4

Map author: Madis Oras (autumn 2015 - spring 2016). Previous map Ootsipalu ([9027](#), [2002039](#))
